## Summary

I am an experienced WordPress and Web Developer with 2 years of expertise in building and customizing dynamic, user-friendly, and responsive websites. I specialize in developing and managing WordPress sites, including theme customization, plugin management, and content updates. I create visually appealing and engaging layouts with a strong eye for design. I focus on delivering clean and efficient websites that provide a smooth user experience across all devices. I collaborate effectively with designers and development teams to deliver functional web solutions, while continuously optimizing performance for fast loading and seamless navigation.
